

### REASONS TO CONSIDER

#### High Growth Potential

Lithium battery technology is essential to the rise of electric vehicles (EVs), renewable energy storage, and mobile devices.

#### Advancing Clean Technologies

EVs produce zero direct emissions, meaning broader adoption could result in reduced greenhouse gas emissions and improved urban air quality.<sup>(1)</sup>

#### Unconstrained Approach

LIT invests in companies throughout the lithium cycle, including mining, refinement and battery production, cutting across traditional sector and geographic definitions.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance, when observed, is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. For performance data current to the most recent month end, please call 1-888-493-8631, or visit [www.globalxetfs.com](http://www.globalxetfs.com).

## DEFINITIONS

Solactive Global Lithium Index	The Solactive Global Lithium Index tracks the performance of the largest and most liquid listed companies active in exploration and/or mining of Lithium or the production of Lithium batteries.
Lithium	Lithium is a chemical element which has several industrial applications including serving as the primary component to manufacture batteries. While there are no financial instruments tracking the direct price of lithium, the fund gains exposure to the asset class through companies active in the exploration, mining and refinement of lithium.

(1) US Office of Energy Efficiency & Renewable Energy, Jan 2020

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Narrowly focused investments may be subject to higher volatility. There are additional risks associated with investing in lithium and the lithium mining industry. LIT is non-diversified. The information provided is not intended for trading purposes, and should not be considered investment advice.

***Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting [globalxetfs.com](http://globalxetfs.com). Please read the prospectus carefully before investing.***

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Beginning October 15, 2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share. Prior to October 15, 2020, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time. The returns shown do not represent the returns you would receive if you traded shares at other times. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
