

JPMorgan Funds -

US Aggregate Bond Fund

Class: JPM US Aggregate Bond C (acc) - USD

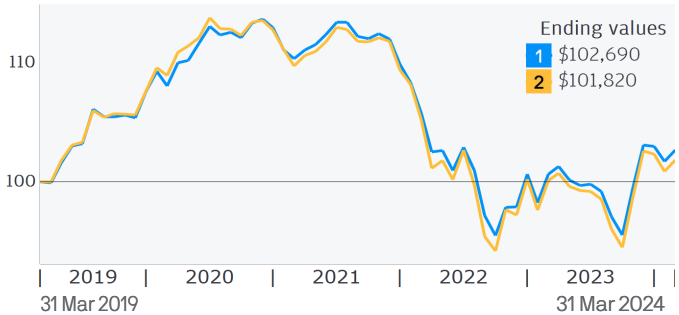

Fund overview

ISIN LU0217389567	Sedol B08J0G4	Bloomberg JPABCAU LX	Reuters LU0217389567.LUF
<b>Investment objective:</b> To achieve a return in excess of US bond markets by investing primarily in US investment grade debt securities.			
<b>Investment approach</b> <ul style="list-style-type: none"><li>• Uses a globally integrated research driven investment process that focuses on analysing fundamental, quantitative and technical factors across countries, sectors and issuers.</li><li>• Focuses on bottom-up security selection through a value-oriented approach that seeks to identify inefficiently priced securities to generate returns.</li><li>• Invests across all sectors of USD denominated investment grade debt which includes government, government related, corporate, and securitised debt.</li></ul>			
<b>Portfolio manager(s)</b> Richard Figuly Justin Rucker Andy Melchiorre Ed Fitzpatrick			
<b>Fund reference currency</b> USD			
<b>Share class currency</b> USD			
<b>Fund assets</b> USD 4614.3m			
<b>NAV</b> USD 18.30			
<b>Fund launch</b> 15 Sep 2000			
<b>Class launch</b> 13 Jul 2005			
<b>Domicile</b> Luxembourg			
<b>Entry/exit charges</b> Entry charge (max) 0.00% Exit charge (max) 0.00%			
<b>Ongoing charge</b> 0.60%			
<b>Investment specialist(s)</b> Walter Theado Stephen Bratcher			
<b>ESG information</b>			
<b>ESG approach - ESG Promote</b> Promotes environmental and / or social characteristics.			
<b>SFDR classification: Article 8</b> "Article 8" strategies promote social and/or environmental characteristics, but do not have sustainable investing as a core objective.

Key risks

The Sub-Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective. The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Sub-Fund. Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks Risks from the Sub-Fund's techniques and securities

Techniques	Securities
Hedging	Contingent convertible bonds Debt securities - Government debt - Investment grade debt
	- Below investment grade debt - Unrated debt Emerging markets MBS/ABS

Other associated risks Further risks the Sub-Fund is exposed to from its use of the techniques and securities above

Credit Interest rate	Currency Market	Liquidity
----------------------	-----------------	-----------

Outcomes to the Shareholder Potential impact of the risks above

Loss	Volatility	Failure to meet the Sub-Fund's objective.
Shareholders could lose some or all of their money.	Shares of the Sub-Fund will fluctuate in value.	

General Disclosures

Before investing, obtain and review the current prospectus, Key Investor Information Document (KIID), and any applicable local offering document. These documents as well as the sustainability-related disclosures, annual and semi-annual reports and the articles of incorporation, are available in English from your financial adviser, your J.P. Morgan Asset Management regional contact, the fund's issuer (see below) or at <https://am.jpmorgan.com/gb/en/asset-management/per/>. A summary of investor rights is available in English at <https://am.jpmorgan.com/lu/investor-rights>. J.P. Morgan Asset Management may decide to terminate the arrangements made for the marketing of its collective investment undertakings. This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date. To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy [www.jpmorgan.com/emea-privacy-policy](https://www.jpmorgan.com/emea-privacy-policy). The Fund does not rely on external support for guaranteeing the liquidity of the Fund or stabilising the NAV per share. The Sub-Fund is rated by an external credit rating agency. Such rating is financed by the Sub-Fund. The Sub-Fund has received approval of a derogation from the CSSF (Commission de Surveillance du Secteur Financier) to invest up to 100% of its assets in different money market instruments issued or guaranteed separately by certain organisations. The Sub-Fund intends to invest more than 5% of its assets in the organisations listed in the Prospectus. For additional information on the sub-fund's target market please refer to the Prospectus. The risk indicator is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class. The risk and reward category shown above is not guaranteed to remain unchanged and may change over time. A Share Class with the lowest risk rating does not mean a risk-free investment. See the Key Investor Information Document (KIID) for details. The possible difference between the current ongoing charge as

stated in this document and those mentioned in the KIID, is caused by the fact that the costs mentioned in the KIID are an estimate based on the actual costs incurred over the past year.

Performance information

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees. The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation. Indices do not include fees or operating expenses and you cannot invest in them. The benchmark is for comparative purposes only unless specifically referenced in the Sub-Funds' Investment Objective and Policy.

Holdings information

Maturity Date refers to the maturity/reset date of the security. For those securities whose reference coupon rate is adjusted at least every 397 days, the date of the next coupon rate adjustment is shown. The yield displayed is in the base currency of the Sub-Fund. Actual share class yields may differ from the displayed yield due to currency effects.

Definitions

NAV Net Asset Value of a fund's assets less its liabilities per Share.

Overall Morningstar Rating™ assessment of a fund's past performance, based on both return and risk and shows how similar investments compare with their competitors. Investment decisions should not be based on a high rating alone.

Correlation measures the strength and direction of the relationship between movements in fund and benchmark returns. A correlation of 1.00 indicates that fund and benchmark returns move in lockstep in the same direction.

Alpha (%) a measure of excess return generated by a manager compared to the benchmark. An alpha of 1.00 indicates that a fund has outperformed its benchmark by 1%.

Beta measures a fund's sensitivity to market movements (as represented by the fund's benchmark). A beta of 1.10 suggests the fund could perform 10% better than the benchmark in up markets and 10% worse in down markets, assuming all other factors remain

constant. Usually the higher betas represent riskier investments.

**Annualised volatility (%)** measures the extent to which returns vary up and down over a given period.

**Sharpe ratio** performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.

**Tracking error (%)** measures how much a fund's returns deviate

from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

**Information ratio** measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by 2% p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
