IMPORTANT: Investment involves risk, including the loss of principal. Investors are advised to consider their own investment objectives and circumstances in determining the suitability of an investment in the iShares Core MSCI China Index ETF (the "Index Fund"). An investment in this Index Fund may not be suitable for everyone. If you are in any doubt, you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser for independent financial advice. Investors should refer to the Index Fund prospectus for further details, including the product features and risk factors. Investors should not only base on this marketing material alone to make investment decisions. Investors should note:

- The Index Fund aims to provide investment results that, before fees and expenses, closely correspond to the performance of MSCI China Index.
- Investment in emerging market countries may involve heightened risks such as increased volatility and lower trading volume, and may be subject to a greater risk of loss than investments in a developed country.
- The Manager may at its discretion pay dividends out of the capital of the Index Fund. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Index Fund's capital may result in an immediate reduction of the Net Asset Value per Unit.
- The units of the Index Fund are traded on the SEHK. Their prices on the SEHK are based on secondary market trading factors and may deviate significantly from the net asset value of the Index Fund.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.

Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Index returns are for illustrative purposes only and do not represent actual iShares Funds or iShares Trusts performance. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index.
